

Add movie to links page of POW PAK

You can make a movie with Windows Movie Maker or nPhotoStory 3 and link it to your PowPak website.

Save movie in your webfolder/network place. See [Kurt's instructions](#) for creating a network place/webfolder.

In PowPak editing mode:

Open your LINKS page

Create a folder on the links page called MOVIES! (or whatever you want to call it.)

Add Title of movie

Enter url in http:// window

Title	<input type="text" value="Halloween Fun"/>
Address	<input type="text" value="http://www.basetteachers/Wadden/Movies/Halloweenfun_0001.wmv"/>
Description	<input type="text"/>
Category	Select existing: <input type="text" value="Movies!"/> <input type="button" value="v"/> Or enter new: <input type="text"/>
Active	Yes: <input checked="" type="radio"/> - No: <input type="radio"/>

Click Submit

The movie will be listed on your links page under MOVIES!(or whatever you called it). Click the link to play the movie
